Joseph M. Bryan Lecture
Albert Eye Research Institute

Mr. Joseph M. Bryan was a glaucoma patient at Duke Eye Center and a very generous benefactor to Duke. He supported the Duke Eye Center building addition campaigns and equipment needs as well as donations to various endowments. He created the Bryan Endowment Fund to provide support for visiting lecturers on eye disease.

February 2
Presenter: Alan R. Scott, MD
Sutter Health (Brown and Toland Physicians)
San Francisco, CA

Stephen and Frances Foster Lecture
Alpert Eye Research Institute

As part of their 20 year mission to increase education and awareness of the rare eye disease, uveitis, Duke Alumni, C. Stephen Foster, MD, FACS and his wife, Frances, established the Stephen and Frances Foster Lecture Fund in 2010. This fund allows the Duke Eye Center to invite a featured speaker annually to deliver The Stephen and Frances Foster Lecture dedicated to the subject of ocular immunology and ocular inflammatory disease.

March 8
Presenter: Botond Roska, PhD
Professor, Faculty of Medicine
University of Basel, Basel, Switzerland

Science of Disease Seminar
(Scheduled to date)
Albert Eye Research Institute

The science of disease seminars aim to foster research collaborations and share ongoing research among the basic science and clinical faculty to understand the disease mechanisms of the eye and development of novel therapies for various eye diseases.

CME Events

Controversies in Cataracts and Cornea Conference
February 4
Trent Semanis Center, Duke University

Course Director: Preeya Gupta, MD

The annual Controversies in Cornea and Cataract Surgery Conference is designed to offer the newest clinical information on many topics in the field of anterior segment ophthalmology. Utilizing the clinical and research expertise of the Duke Eye Center faculty, the course will cover topics in medical and surgical cornea as well as cataract evaluation and management. Throughout the course we aim to focus on many of the unanswered questions in anterior segment ophthalmology including several new and controversial issues facing our field.

Ophthalmology Grand Rounds
February 9
March 9
April 6
Albert Eye Research Institute

Each month of the academic fiscal year, the Duke Eye Center Residents and Fellows present interactive patient cases in an interactive atmosphere.

Advanced Pediatric Retina (APR) Course
March 24-25
Duke Eye Center

This inaugural course, APR is designed for the pediatric ophthalmologist and pediatric retinal specialists with interest in diseases such as retinopathy of prematurity (ROP), ROP and other retinal diseases. The course will showcase utilization of advanced ophthalmic imaging to improve patient outcomes, pharmacologic treatment strategies and the cutting edge retinal surgery.

Course Director: Jullia Rosdahl, MD, PhD
Course Co-Directors: Tamer Mahmoud, MD, PhD

3rd Fellows Advanced Vitreous Surgery Course (AVS)
April 20
Duke Eye Center

Course Director: Lejla Vajzovic, MD

For more information visit www.regonline.com/avs2017

The 3rd Duke Eye Center Fellows Advanced Vitreous Surgery (fAVS) meeting was initiated by the late Robert Machemer, MD over 40 years ago when he came to Duke as Chairman. For our 20th anniversary we have unprecedented plans for an outstanding program and with 40 world renowned speakers, lively panels with discussion and debates.

Duke Ophthalmology Trainee Day Scientific Session
June 16-17
Albert Eye Research Institute

This event serves to honor our trainees. Residents and fellows present their research projects that have been developed throughout the year.

Duke Glaucoma Symposia

Duke Glaucoma Fellows Program
November 11
New Orleans, LA

Led by Duke Eye Center faculty, this program showcases new techniques, emerging therapies and groundbreaking data to the regional optometric community.

CE Events

Duke Community Education Series

Duke Glaucoma Symposium
October 7
Albert Eye Research Institute

The annual Duke Glaucoma Symposium is designed to provide the latest advances in medical and surgical management of glaucoma. Novel diagnostic and treatment modalities will be presented by Duke Eye Center faculty and a distinguished guest.

Duke Glaucoma Fellows Program
November 11
New Orleans, LA

This inaugural program is intended to develop trainees with a fundamental understanding of glaucoma diagnosis and management to promote intellectual curiosity. The course is designed to have integrated surgical wet labs, and follow directed didactic discussions.
