I am pleased to announce that we have named Lejla Vajzovic, MD as Director of Duke Ophthalmology Continuing Medical Education. She has an impressive track record of organizing superb events. Look for exciting changes in the coming year under her leadership.

What an amazing education line up for 2018! We are proud of our long standing educational programs that have been held for decades, as well as the new programs we recently introduced. This year marks the 30th anniversary for the Duke Glaucoma Symposium and we are bringing the second annual Duke Glaucoma Fellows Course home to Duke this year to be held in conjunction with the milestone Glaucoma Symposium.

Highlights of the 2018 CME Program:

• Annual Controversies in Cornea & Cataract Surgery
• 30th Annual Glaucoma Symposium
• 2nd Annual Glaucoma Fellows Course
• 4th Annual Fellows Advanced Vitreoretinal Surgery Course

Grand rounds are now streamlined! Check out our website dukeeyecenter.duke.edu/cme for the link and more information.

It is our goal to provide you with the latest in ophthalmology research, hands-on training in surgery techniques and patient care innovations. We promise to offer intriguing, thought-provoking events in an engaging environment with the most well-respected leaders in ophthalmology.

Hope to see you soon!
Lectures
